Experimental Information

What samples do you want to test? Please describe chemical makeup and approximate concentrations.

What hazards are associated with this sample? (*i.e.* biohazard, corrosive, flammable, ect.)

What tests do you want to run on your sample?

User Agreement

By filling out and submitting this form, you agree to use only the samples and tests indicated. Additional testing and materials require an additional approval form and may require additional training. Any samples and materials brought into the lab must leave the lab with you. The user must provide gloves and any additional supplies. Please submit form to **ir16@rice.edu**.
